

Monday

Tuesday

Wednesday

Thursday

Friday

Session 6 objectives

- Present the optional users' action classes
- Present the “analysis” tools allowing you to collect data that will then be displayed with external analysis tools
- Present ready-to use Geant4 scoring tools: scorers, Command-based scoring
- Explain how you can extend the command set, adding your own commands
- **Hands-on 6a, 6b & 6c** : add histogram and ntuples to your application; extend the GUI menu panel ; create your own commands
